

To ensure everyone stays safe and well during activities sessions, we have implemented the following:

1. Visitors aged 12+ will be asked to **remain at least 2 metres** from others as much as possible, both indoors and outdoors.
2. Activity groups are limited to a **maximum of 12 people** (including any leaders/parents/volunteers not taking part)
3. All activities will take place outdoors. However, for some activities it may be necessary for participants who are able to wear **face coverings** if there is a chance that 2 metre distancing may be broken. Face coverings should always be worn when inside – this includes toilets.
4. Where possible, participants will be talked through putting on **safety equipment**, if our instructors need to assist they will be fully equipped with the necessary personal protective equipment to do so.
5. Some activities may have new **age restrictions** to maintain safety in certain activities where the instructors cannot assist hands-on.
6. All of our activity safety equipment (helmets, buoyancy aids, harnesses) as well as any borrowed equipment (wellies, jackets etc.) go through a 24 hour quarantine in a room with an ozone generator to thoroughly **sanitise between groups**.

7. If there are multiple groups on site at the same time, they will be **kept separate throughout**, this includes not taking part in the same activities, not using the same equipment and where possible using different toilets.

Please also see the Day Visitor or Residential quick guides for more info about your visit.
